

Eagle Eye on GSS MIDDLE SCHOOL – Mr. Regina & English Language Arts

Good Shepherd Regional Middle School students finished with the first two months of school and have accomplished several academic and non-academic goals in that short time. From mastering the daily responsibilities of being a student like locker operation and homework completion to their expressions of faith like daily prayer and living rosary, they have shown immense promise and progress.

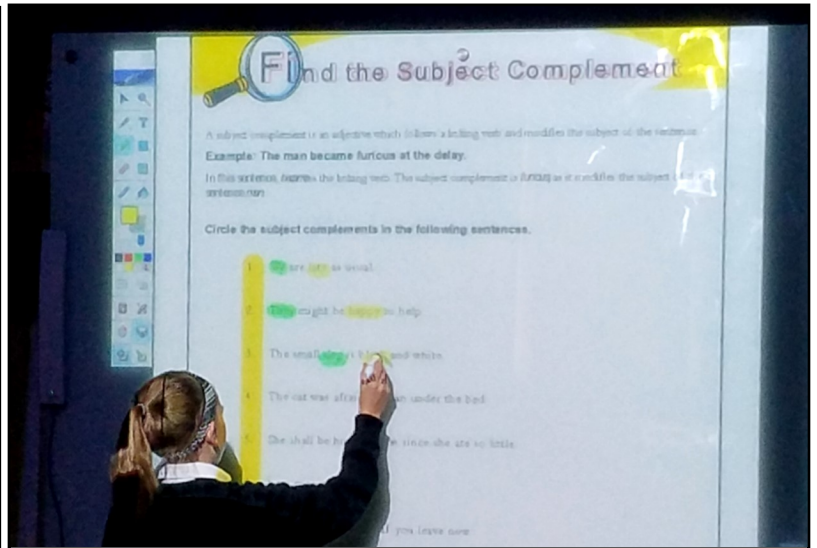

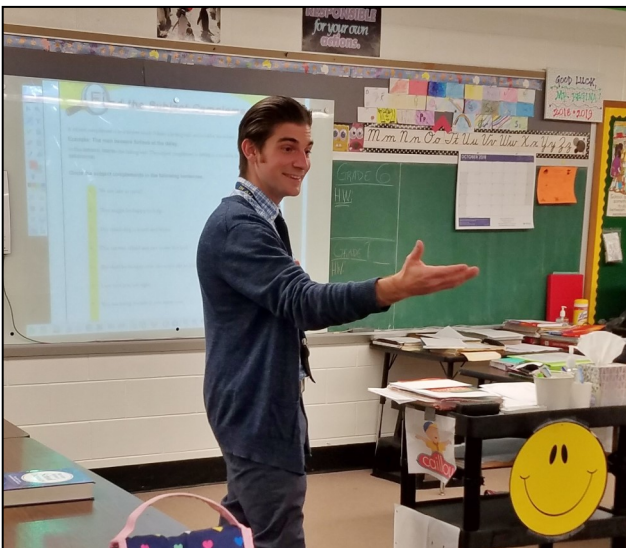

In English Language Arts, students use the Mimio Interactive Whiteboard daily to take notes, complete exercises and explore other academic challenges. This technology allows students to see their results in real time while working on an exercise, interact with the material during a lecture, and explore classroom content in new and exciting ways.

This week the Sixth Grade class used this technology to prepare for their first grammar assessment and to take the assessment itself. The assessment itself had several components that included but were not limited to group and individual exercises, exploratory compositions and reflection.

Integration of technology in the classroom helps prepare students for a 21st century global society so in addition to the Mimio Interactive Whiteboard students also utilize Chromebooks and Google Classroom to promote understanding of academic content.

We are excited to continue to utilize all of this in our academic endeavors this year and look forward to a successful 2018 – 2019 school year.

Mr. Joe Regina, 6th Grade Homeroom Teacher

GOOD SHEPHERD CATHOLIC SCHOOL *Promoting Respectful, Responsible, Life-Long Learners*
